

## Join our tree planting program

Right now putting down roots is probably the last thing on your mind. But even as you enjoy the freedom of travel, it's hard to ignore the environmental damage affecting our planet at an alarming rate. Especially if you consider the very affect you are having travelling here or even being here.

Apart from forest depletion, soil erosion and resource overuse, we all know the real damage is being caused by carbon emissions into the ozone layer - carbons like the plane released flying you to this paradise.

*But you can make a difference in a very simple way.*

## By planting a tree (or three!)

By simply purchasing a tree for just FJD \$5.00 for us to plant on the island, you'll be helping to balance out the carbons released into the atmosphere each year on the island.

In fact, we've measured the energy consumption of Oarsman's Bay and the energy it takes for you to fly here. That way we can determine how much carbon is being released and using a formula set by the IHEI (International Hotels Environment Initiative) we can work out how many trees you need to plant.

***If you travelled from the EU, 5 trees are needed, from the USA, 3 trees and AUS/NZ, 2 trees.***

## Your gift that grows in more ways than one

**By planting some trees you're assistance will help:**

- Conserve the ecological balance of Nacula,
- Allow future guests to enjoy unspoilt paradise
- In carbon reduction or neutralisation
- Preserve the immediate resort area and surrounding Island
- Oarsman's Bay practice sustainable and responsible ecotourism
- And most importantly, give back to the local community.

In addition, profits will benefit the entire tikina (community), with the funds generated going towards the Ratu Meli Memorial Primary school for school development projects and educational materials.

## Yes, I want to put down some roots and buy a tree.

- I would like to plant  trees @ FJD \$5.
- I would like to make a donation to the school of  \$50  \$30  \$10  other
- I would like to be kept informed of your progress by  email  snail mail
